Lenguas de Payandun. Schnapps aromatiza-
do de "Wolfe". Vino puro frances "Morton".
Tobacco "Pioneer".

Hurlingham Races.
Feb. 2nd 18-1
Ponies can be measured offi-
cially at Hurlingham on 1st.
Feb. from 12 to 3 o'clock as
well as on the day of the Ra-
ces at 11 o'clock.
No allowance will be made
for shoes.
Anyone wishing to ride as
a gentleman rider must be
proposed and accepted by the
Committee before Jan. 25th.

Let us suppose for a moment that the
Government adopts this proposal.
Can you say what the gold premium will
be in June 1891? In all probability it
will be about 300 per cent., that is the pa-
per-dollar will be worth 20 cents. Where-
as if a law were passed to-morrow accept-
ing the above plan as legal tender for all
duties at par with the gold dollar would be
repaired and you would perhaps see the
gold premium decline to 170 or 180 per
cent. The importance of any improve-
ment in the currency is more than meets
the eye, because in the natural order of
things the tendency is the other way.
Nine people out of ten in Buenos Ayres
have made up their minds to cherish a
hoax, namely, that if the paper-money
were left to itself it will steadily improve,
and the premium decline some day to 100
per cent. It is folly to hope that you will
ever again see the paper-dollar worth 50
cents. No human power, no combination
of circumstances, no overwhelming mass of
experts, nothing short of a Conversion
loan, could infuse that amount of value into
the currency or reduce the quotations of
gold to 200.
Time is money, and if the people and
legislators of Buenos Ayres lose their time
in hoping for the impossible they cannot
expect to mend the situation. Every
year the currency is going from bad to
worse and yet to read the newspapers and
the opinions of financiers you would fancy
that the paper-dollar is steadily improv-
ing and that things are now looking fairly
prosperous all round!

Financial directors of Berlin recom-
mend another loan, additional taxes
on land. When I left Buenos Ayres, in
1888, the farming interest was so de-
pressed that people were glad to sell cattle
at 50 per cent. premium. Now they are
selling at 100 per cent. premium. And yet
this is the case which our Berlin money
lenders propose to tax with new bur-
dens.
You may, Mr. Riestra, drive the
people mad with taxes. A good many
have already gone mad over the tax
banking and clandestine issues, and I see
some persons who have committed
suicide. But, a humane Government will
pause before aggravating the sufferings of
its subjects. The Berlin project would
possibly bring a fair amount of gold into
the Treasury, but the groans of the un-
fortunate workmen of Buenos Ayres
would be heard in the uttermost ends of
the earth.

THE LADIES' CLUB.
Under the auspices of Mrs. Pakenham,
wife of our most esteemed British Minis-
ter, and a few of her friends a Ladies'
Club is being started in this city, which
will be the first of its kind in the city.
The club is being started in this city, which
will be the first of its kind in the city.
The club is being started in this city, which
will be the first of its kind in the city.

Our Mails.
London, Dec. 31st
Renter's Agency telegraphs that a meet-
ing between Mr. Parnell and Mr. W. O'
'Brien took place at the Hotel de Ville,
Boulogne, the interview between the two
gentlemen, which was strictly private,
lasting for half an hour.
Writing to a correspondent, Mr. Child-
erley, is admitting the right of the
State to regulate the hours of labour of
the interests of public safety, regulates
the doctrine that Parliament should en-
force legislation inconsistent with personal
liberty, simply because the majority in a
body, for social reasons or in order to raise
power or wages, desire to prohibit men
from working more than a certain number
of hours.
A material change has occurred in re-
gard to the strike since the North British
Caledonian and Glasgow and South West-
ern Railways. The companies are making
strenuous efforts, with varying success,
to restore the working of the traffic. From
Aberdeen, it is reported that some of the
men on strike are showing signs of
discouragement, and at other places a
number of the employees have returned to
work.
Originating, it is believed, upon the
second day of the strike, the North British
Rail, a disastrous fire spread to a block
of buildings forming the frontage of Queen
Victoria Street. Although hampered in
their efforts by the severity of the weather,
the fire brigade succeeded in extinguishing
the flames, and at length obtained the mas-
tery. The damage done is estimated at
£200,000.
Thomas Macdonald was executed at
Kirkcaldy for the murder of Miss
Alice Holt, a school-mistress, at Bolton
on November 10. A new apparatus for
regulating the length of the drop was used
for the first time, and was favourably re-
ceived by the public. A second execution
took place at York Gaol, the culprit being
Robert Kitching, convicted of the murder of
Police-sergeant Woody, at Leamington,
North Yorkshire, on September 19.
The neck of the culprit was dislo-
cated.
With the satisfactory completion of the
settlement prices improved on the Stock
Exchange. The inquiry was chiefly for
American railways, though the last quot-
ation was then eight miles below the level
of the previous day. The market was
quiet, and English lines advanced, besides
foreign Government bonds, while Consols
slightly declined. On balance, £45,000
in gold was withdrawn from the Bank
for export, but a large amount is expected
to be received from Australia in a few
days.
